

Element Concord Microbial Cell Growth Information

Please complete this form and include any additional information critical to the successful growth of your cell line. It is important for our scientific staff to understand the growth and general characteristics of your cell line for the creation of batch production records and supplies estimation.

Client's Name:

Cell Line Identification:

Cell Line Origin / Strain:

Cells are from (check one): RCB MCB Other (identify)

Seed Lot Information:

Pre-bank Testing performed prior to submitting to Element Concord: Yes No

Cell line purity: Yes No

Cell line identity: Yes No

Bacteriophage clearance: Yes No

CofA will be provided with seed lot: Yes No

Lysogenic phage producing organism: Yes No

Growth curve analysis performed: Yes No

Inserted Plasmid: Yes No

Size of plasmid:

Antibiotic resistance:

Expected total concentration per vial: CFU/ml

Approximate volume per vial: ml

Seed Lot Information

Ready to Use (Off the Shelf) Custom Formulation Client Supplied? Yes

Component Information and Growth Medium Preparation:

Component Name	Manufacturer	Catalog Number	Concentration (Per Liter)

*Materials ordered by Element Concord will be accepted and used after verification of the CoA.

Element Concord Microbial Cell Growth Information

Seed Lot Information

Non-animal source materials and/or reagents required? Yes No

Freeze Media Component

Medium	Manufacturer	Catalog Number

Supplements (i.e. Glycerol)	Manufacturer	Catalog Number	Concentration (Per Liter)

Thaw and Culture Information

Describe thawing procedure for your cells below or attach procedure used to produce seed lot (e.g. SOPs, batch records or other instructions). If unknown or no preference, Element Concord will use standard thawing and culturing procedure.

Element Concord Microbial Cell Growth Information

Storage Requested?

Yes No

Length of Storage Requesting:

Timeline for Cell Bank Generation and Release

Characterization Requirements

(The requirements for post-bank testing are dependent on the intended use of the cell bank. If unknown, Element Concord can provide standard tests performed for specific type of bank):
